APPENDIX 2.....	12

CHAPTER I: SCOPE

Article 1

The rules and regulations hereinafter are only applicable to research projects submitted within the framework of the Télévie Call of the Fund for Scientific Research - FNRS¹ (F.R.S.-FNRS).

Instrument	Duration	Characteristics	Co-promoter participation
Télévie (TLV)	1 year or 2 years	Single-university TLV Project	Yes
		Multi-university TLV Project	Yes

The purpose of Télévie is to collect funds in order to make progress in the fight against leukemia and cancer in children and adults.

Article 2

The Télévie research project may be conducted in one or several institutions listed in [Appendix 1](#).

Article 3

The main promoter is the person who assumes the scientific responsibility and is in charge of the administrative management of the funded research project.

CHAPTER II: APPLICATION

II- A.: PROMOTERS

Article 4

The main promoter-applicant to a Télévie project must be:

- Either a Research Associate (CQ), a Senior Research Associate (MR) or a Research Director (DR) of the F.R.S.-FNRS who genuinely carries out the fellowship by the time of the validation deadline set for the academic authorities (rectors) at the latest,
- Or a researcher-promoter of an ongoing Ulysse Incentive Grant for Mobility in Scientific Research (MISU) who genuinely carries out the fellowship by the time of the validation deadline set for the academic authorities (rectors) at the latest,
- Or a researcher appointed in an institution listed in [Appendix 1](#) and must meet the following conditions altogether:

¹ The Fund for Scientific Research - FNRS shall be understood as the F.R.S.-FNRS and its Associated Funds.

- Be permanently² appointed to an academic or scientific position or on probation in that institution.
- This appointment must have a final and conclusive assent from the competent body to legitimize this appointment in accordance with the Law or the institution regulations by the time of the validation deadline set for the academic authorities (rectors) at the latest.
- This academic or scientific position must be effective by the time of the starting date of the Télémie project, i.e. by 1st October of the year of the Télémie Call concerned at the latest.

If the main promoter-applicant who is appointed permanently accesses the legal age of retirement / becomes professor emeritus after the validation deadline set for the academic authorities (rectors) and before the end of the funding scheme in case of granting, the submission of the application shall be subject to prior approval by the Head of institution where the research will be carried out.

The main promoter-applicant permanently appointed who will access the legal age of retirement / become professor emeritus by the validation deadline set for the academic authorities (rectors) is not eligible.

Article 5

In a Multi-university project, the eligibility criteria as referred to in article 4 are also to be met by the project initiator of an additional institution involved.

II- B.: SUBMISSION OF APPLICATION

Article 6

The Télémie Call is opened once a year and is published on the F.R.S.-FNRS website.

The application can be submitted in French or in English. It must only be submitted on [e-space](#), the online platform dedicated to the calls for proposals.

All applications are submitted to a procedure including successive electronic validations on the dates that will be indicated when the call is published.

- The validation by the main promoter, responsible proponent accountable to the F.R.S.-FNRS administration: it accounts as a confirmation that the application file is complete.
- The validation by the co-promoter(s): it accounts as an electronic signature.
- The validation by the research administration (or Board of Education) of the institution to which promoters are related – the Authority to which the application file is transferred once promoters have validated the application form. That authority may accept or refuse the application. The validation deadline set for the rectors puts a final end to the call for proposals.

Applications that have not been validated within the time-frame of the call cannot be taken into account.

² Research logisticians of rank A, as defined by the Royal Decree of 31st October 1953 fixing 'le statut des agrégés, des répétiteurs et des membres du personnel scientifique des universités de l'État', are not allowed to be the main promoter-applicant. They are not allowed to be either the requested project initiator of an additional institution involved in the Multi-university project.

They may nevertheless be co-promoter applicants, provided they hold a Ph.D.

No further change or modification can be made in the proposal after the validation deadline set for the main promoter.

The validation dates are available in the mini-guide.

CHAPTER III: NATURE AND DURATION OF THE FUNDING

III- A.: ELIGIBLE AND NON-ELIGIBLE EXPENSES

Article 7

As part of the Télémie project the allocated fund can cover 3 types of expenses:

- Personnel
- Operating
- Equipment

Article 8

The F.R.S.-FNRS policy on the eligibility of expenses is set out in the Practical [Guide to Expenses](#).

The F.R.S.-FNRS will only reimburse eligible expenses in accordance with the provisions of this guide.

III- B.: FUNDING CHARACTERISTICS AND PROVISIONS

Article 9

Télémie projects submitted via the TLV instrument are applicable for 1 year or 2 years.

The starting date of Télémie projects is set for 1st October following the allocation decision date and the ending date for 30th September.

Article 10

Categories of personnel³ are detailed in the table hereafter.

Categories	Activity	
	Part time	Full time
Doctoral Researcher - Grant - Grant F.R.S.-FNRS - Télémie	n/a	x
Applicant to a Clinical Ph.D. (capped)	x	n/a
Postdoctoral Researcher ⁴	x	x
Postdoctoral Clinical Specialist (capped)	x	n/a
Non-doctoral Researcher	x	x
Technician - Salary	x	x

n/a = not applicable

³ Applicant to a Clinical Ph.D., Postdoctoral Clinical Specialist categories are subject to an annual limit, calculated in proportion to the number of days worked. Limitations in force for the first year of funding are detailed in the Télémie Call mini-guide.

⁴ The promoter shall contact the relevant department of their host institution in order to determine the Postdoctoral Researcher's status (Mobility situation, grant, employee...) and the work time.

Promoters are allowed to recruit personnel **for a minimum of one month** and the duration may not exceed the maximal duration of the funding agreement.

Article 11

The identity of the doctoral personnel is not required when submitting a TLV application. After granting and identification, the doctoral personnel shall not be replaced in case of discontinuation.

Specific rules and regulations govern for the [Grant F.R.S.-FNRS – Télévie](#) (Doctoral Researcher category).

Regarding the Applicant to a Clinical Ph.D.:

Objective	<p>The applicant to a part-time Clinical Ph.D. (in Medical Sciences or Pharmaceutical and Biomedical Sciences) shall carry out their research* under the supervision of a promoter, while pursuing a part-time clinical activity in a university hospital (as defined in the federal regulations) or in a university hospital department as identified by the F.R.S.-FNRS (see Appendix 2).</p> <p>The applicant to a Clinical Ph.D. shall simultaneously undertake an Advanced Master or already be a medical specialist.</p> <p><i>* In a university of the French-speaking Community of Belgium which has a faculty of medicine offering a complete curriculum.</i></p>
Eligibility	<p>The applicant to a part-time Clinical Ph.D. must have obtained the academic degree of Medical Doctor.</p>
Duration	<p>Two years, that may be renewed twice (with a maximum duration of six years).</p>
Employer	<p>The hospital where the applicant to a part-time Clinical Ph.D. carries out their clinical activity is their employer and shall remunerate them.</p> <p>The F.R.S.-FNRS will reimburse half of the full-time annual cost to the hospital. Cost (on-call duties not included) includes salary cost plus all direct and indirect salary costs. However, the F.R.S.-FNRS reimbursement is subject to an annual limit.</p> <p>Consequently, the hospital-related salary of part-time clinical doctors who are also researchers can be higher than the research-related salary.</p>

Article 12

The requested Postdoctoral Researcher and Postdoctoral Clinical Specialist categories must be identified when submitting the proposal. The curriculum vitae (using the provided template) shall be attached to the application. Those candidates must hold a Ph.D. delivered by 1st May of the year of the application at the latest. A certificate of achievement or a copy of the doctoral degree must be enclosed in the application file.

The postdoctoral personnel to be recruited must be requested for two years and may be renewed for two years.

Postdoctoral Researcher is requested in a host laboratory different from the laboratory of the thesis supervisor, unless they can justify a two-year mobility outside of their university of origin by the deadline of validation by the academic authorities (rectors), to other research institutions in the French-speaking Community of Belgium, Dutch-speaking Community or abroad.

Specific rules and regulations govern the [Collaborateur scientifique F.R.S.-FNRS – Télévie](#) (Postdoctoral Researcher employed by the F.R.S.-FNRS).

Regarding the Postdoctoral Clinical Specialist:

Objective	The part-time Postdoctoral Clinical Specialist shall carry out a postdoctoral-level research activity in a university of the French-speaking Community of Belgium*, while pursuing a part-time clinical activity in a university hospital (as defined in the federal regulations) or a university hospital department as identified by the F.R.S.-FNRS (see Appendix 2). <i>* Which has a faculty of medicine offering a complete curriculum, under the supervision of a promoter.</i>
Eligibility	The part-time Postdoctoral Clinical Specialist must already be a medical specialist. They must hold a Ph.D. in Medical Sciences or Pharmaceutical and Biomedical Sciences, delivered by 1 st May of the year of the application at the latest.
Duration	Two years, that may be renewed for two years.
Employer	The hospital where part-time Postdoctoral Clinical Specialist carries out their clinical activity is their employer and shall remunerate them. The F.R.S.-FNRS will reimburse half of the full-time annual cost to the hospital. Cost (on-call duties not included) includes salary cost plus all direct and indirect salary costs. However, the F.R.S.-FNRS reimbursement is subject to an annual limit. Consequently, the hospital-related salary of part-time clinical doctors who are also researchers can be higher than the research-related salary.

Article 13

Holders of an academic Master's degree (or equivalent) or a Ph.D. are not eligible under the Technician category.

Holders of an academic Master's degree (or equivalent) are eligible for Non-doctoral Researcher category. The Non-doctoral Researcher cannot, under any circumstances, start any personal research work leading to a Ph.D. during the working hours devoted to this function.

Article 14

No compensation or remuneration may be granted to research promoters. As a consequence, remunerated personnel or the personnel who should be remunerated may **not** assume **any** promoter position.

CHAPTER IV: EXAMINATION OF APPLICATIONS

Article 15

Criteria that will be taken into account for the evaluation of the Télévie applications are the following:

- Quality of the promoters,
- Quality of the project,
- Quality of the scientific personnel for the postdoctoral categories.

Article 16

The Board of Trustees of the F.R.S.-FNRS allocates funds according to the budget that is available. It decides on the granting or rejection, and where provided for, on the amounts to be granted.

CHAPTER V: FINANCIAL PROVISIONS

Article 17

Funding granted through the Télémie instrument is subject to an agreement between three parties:

- **The promoter** who commits to carrying out or pursuing the funded research;
- **The F.R.S.-FNRS** which commits to allocating grants covering the personnel, operating and equipment costs;
- **The host institution** which does not undertake any obligation when funding allotment period expires.

In the particular case of joint research carried out by several promoters in several host institutions, it is the responsibility of each institution to assume the management of the personnel recruitment, with the exception of the Grants F.R.S.-FNRS - Télémie and Collaborateurs scientifiques F.R.S.-FNRS - Télémie, managed by the F.R.S.-FNRS. Also they shall handle the management of the grants and equipment ownership.

Article 18

Any change made to the planned expenses must receive the prior written approval of the F.R.S.-FNRS.

The budget devoted to the personnel is available only for the duration of the granting only.

Article 19

Grants at the disposal of the promoters are managed by the financial department of the institution to which they are attached.

The financial department of the institution shall send the supporting documents to the F.R.S.-FNRS as soon as possible.

For the personnel costs relevant to a given calendar year, the supporting documents must be sent before the 1st March of the following year.

At the end of the year the remaining balance of the grants covering operating and equipment costs will be automatically deferred for two years maximum. The supporting documents must be sent before the 1st March of the year in question.

The unspent amount will be recovered by the F.R.S.-FNRS.

Article 20

No hiring is effective without the prior written approval of the F.R.S.-FNRS.

Article 21

Scientific and technical personnel shall be recruited in accordance with the scales and regulations in force.

As for the Applicant to a Clinical Ph.D., the Postdoctoral Clinical Specialist, the F.R.S.-FNRS contribution is subject to an annual limit assigned from the Fund and is calculated in proportion to the number of days worked.

CHAPTER VI: MISCELLANEOUS PROVISIONS

Article 22

Any device acquired with a credit from the F.R.S.-FNRS becomes the property of the host institution, to which the beneficiary of the credit is attached.

The purchase of any device must be done with due respect for the provisions defined by the relevant department of the host institution.

This institution commits, however, to putting the mentioned device at the disposal of the researchers involved for the time needed in order to conduct the research, which led to its purchase in the first place. In addition, the host institution commits not to alienating or lending the equipment without the prior written approval of the F.R.S.-FNRS.

In the event that the device was purchased with the provision of an additional funding, the Board of Trustees of the F.R.S.-FNRS will settle the ownership issue with the competent authorities.

Article 23

Grants are exclusively allocated for the execution of Télévie research projects approved by the F.R.S.-FNRS. Promoters are required to use them solely for that purpose. Any fundamental change in the research project must obtain the prior written approval of the F.R.S.-FNRS.

CHAPTER VII: RIGHTS AND OBLIGATIONS OF THE PROMOTERS

Article 24

Any funded research programme must comply with the legal provisions in force regarding ethics.

Article 25

Promoters must submit to the rules imposed by the academic authority of the host institution where they work and observe its regulations. In addition, regarding the F.R.S.-FNRS, they must adhere to the regulation on property, protection and promotion of the results from the research carried out within the institution.

Article 26

Three months after the end of the project, a request for a final report shall be sent to the main promoter.

The main promoter must upload this final report on their personal page [e-space](#) within two months following the request.

Article 27

Pursuant to the [Regulation](#) on the application of the Open Access policy to scientific publications resulting from research programmes supported by the F.R.S.-FNRS and its Associated Funds, any scientific publication resulting partially or fully from the funding granted as part of the Télévie instrument shall mention the source of this funding as follows:

"This work was supported by the Fonds de la Recherche Scientifique-FNRS under Grant(s) n° [ID number]".
